About Beer and Whisky An Expert Talks.

Robert Thomson, a wealthy English capitalist, who has been looking thro' the United States for the purpose of making investments, is in Washington on his return to his home. Having read some recently published official figures indicating the great increase in the consumption of beer in the United States he gave some attention to breweries in different cities and to the liquor and taxation laws of the country, studying the internal revenue laws of the treasury.

To your correspondent he expressed some mighty interesting views: "Conditions in America are far different to what they are in Great Britain so far as the consumption of alcoholic drinks is concerned. I have noticed few people over here who are the worse for drink and those were in saloons and cars. In nearly all instances they were drinkers of spirits. The method of drinking liquor without water and then drinking a little water afterward leads to drinking more than would be the case in England, where the spirits and water are mixed together."

Beer drinking in this country, from my observation, seemed to be without drunkenness. I understand the American beer contains only about three per cent. of alcohol. We would consider this a temperance drink in England, our beers being much heavier and containing a higher percentage of alcohol. I do not understand why temperance reformers in America make objection to the beer of this country, while ciders and similar drinks containing far more alcohol are not objected to. I presume it is because the true facts are not known.

"The way we look at these things in England is that the objection to a drink is in the amount of alcohol it contains. By this we make a fight against the drinks containing high percentages of alcohol first, not classing them all together, like the temperance people here do. I should think that if the temperance leaders of America could educate the people to the milder and lighter drinks, tabooing the strong ones, they would accomplish more than they do in advocating prohibition.

"Another thing that struck me forcibly is the heavy government tax upon beer. It is the drink of the workingman by reason of its cheapness, purity and food qualities. It is better that this is so, as the American workingman is unexcelled the world over. If he drank stronger drinks he would be less useful and reliable. The working people of Great Britain would be up in arms if such legislation existed in that country. Alcohol is taxed heavier in my country than in any other in the world, but the taxation is in accordance with the proof strength. It appears to me that the rich man's drinks should bear as heavy a proportion of tax as the poor man's, but that is not so in the United States, where beer pays a much heavier tax than the strongest spirits."

A few weeks ago Mr. John Duncan got hold of a square-built Western pony with flowing mane and tail, says the Hancock Clarion. He thought he had a treasure until he attempted to put the Narragansett to some practical use. The animal was an enemy to mankind, and when a member of the genus homo would go near he would raise his hoof and strike like a boy with a musket. When he believed his aim was good he would let go and perforate the atmosphere. If the horse failed to strike a man after taking careful aim he would become so enraged that he would scream like a panther and lie down and really grieve. Two days ago he died because he missed a fellow when kicking at him.

A Disastrous Calamity.

It is a disastrous calamity, when you lose your health, because indigestion and constipation have sapped it away. Prompt relief can be had in Dr. King's New Life Pills. They build up your digestive organs, and cure headache, dizziness, colic, constipation, etc. Guaranteed at G. L. Penny's, Stanford, Lyne Bros., Crab Orchard, 25c.

The amount required for the completion of the existing project on the Falls of the Ohio river is estimated in the annual report of the chief of engineers at \$477,569.79. The balance available on July 1 last, was only \$78,419.

The Government has taken steps to prevent the importation into this country of egg yolks mixed with borax, a product coming from China and used, it is said, by wholesale bakers, when American eggs are high.

When you want a pleasant physic try Chamberlain's Stomach and Liver Tablets. They are easy to take and produce no griping or other unpleasant effect. Sold by all drug-gists.

IN NEIGHBORING COUNTIES.

Dudley Barnett is dead at Bryantville from the infirmities of old age. A wife and 14 children survive him.

The Bank of Mt. Vernon has declared its usual 10 per cent. dividend, besides putting a nice little sum to the surplus.—Mt. Vernon Signal.

In a fight at Richmond over a bar bill Anne Harris, a saloon-keeper, was stabbed and J. L. Baker, former candidate for county assessor, was shot in the leg. Neither man was seriously injured.

Mrs. Walter Stotts, whose husband was killed in a street fight at Harrodsburg by Policemen Britton and Herron, says she will fight the case to the bitter end. The officers were acquitted of the killing of Sam C. Black, which occurred at the same time.

Middlesboro is practically at the mercy of a lot of ruffians, led, it is said, by Frank Bell, indicted for the murder of Jack Bolen. The new militia company is patrolling the streets, but this is not deemed effective. Business is paralyzed, and the Western Union manager has been warned not to send out any more press dispatches. Sheriff Tyrus Howard has notified the county authorities that he will resign his office.

Claud Grubbs and Elvin Mays, of Kidds Store, loaded with mean whisky, went to the home of J. H. Pemberton and acted so unmannerly that Pemberton began on them with an ax, the only means of defense handy. Mays received an ugly wound in the head, neck and shoulder, and Grubbs one in the back 14 inches long, severing two ribs from the backbone. Meanwhile Mays regained consciousness and opened fire upon Pemberton, one ball entering the right lung and lodging in the left arm pit and another taking effect in the left arm, making an ugly flesh wound. It is believed that Pemberton will die of his wound. Mays and Grubbs have left for parts unknown, it is reported.—Cass County News.

C. B. Candler, alias James B. Smith, has been arrested at Red Lodge, Mont., on a forgery charge at the request of Somersett, Ky., officials. Candler, who is in poor physical condition, not only admits his connection with the forgery, saying it amounted to only \$30, but also states that he is implicated in a killing in Kentucky. He admitted to Sheriff Potter that he had killed a man in Somerset and had escaped from jail. He declares the act was committed in self-defense. He had brought suit against John Stanger, who as a result, essayed to cut him with a knife, and during a scuffle he shot Stanger. He was convicted of manslaughter, but escaped. He says he now wants to return to Kentucky.

One Recompense.

Now's the doleful
Time of year
When the leaves are
Sad and sere;
All the skies loom
Dark and gray
Whilst most people
Feel that way.
Drear and irksome
Is the fall,
Time of wormwood,
Time of gall;
But there's one wee
Ray of light
Piercing through the
Inky night.
When the bleak winds
Strip the trees
Then the darned mos-
Quitoes freeze!

Man's Unreasonableness

is often as great as woman's. But Thos. S. Austin, Mgr. of the "Republican," of Leavenworth, Ind., was not unreasonable, when he refused to allow the doctors to operate on his wife, for female trouble. "Instead," he says, "we concluded to try Electric Bitters. My wife was then so sick she could hardly leave her bed, and five physicians had failed to relieve her. After taking Electric Bitters, she was perfectly cured, and can now perform all her household duties." Guaranteed by G. L. Penny, Stanford, Lyne Bros., Crab Orchard. Price 5c.

The stork one day

Had lost its way,
Was tired and full of rancor
And asked the child
That at it smiled
Where it would like to anchor.

The kid was wise,

As you'll surmise,
And murmured to the birdie:
"Just take me down
To New York town
To dear old Pa McCurdy." —Puck

PENNY'S DRUG STORE Tells Why They Endorse Vinol So Highly.

First: Vinol contains in a concentrated form all of the medicinal curative elements of cod liver oil, actually taken from fresh cod's livers, but without a drop of oil to nauseate and upset the stomach, and retard its work, therefore where old-fashioned cod liver oil or emulsions will do good Vinol will do far more good.

Second: Because Vinol is not a patent or secret medicine; it contains no injurious drugs to react upon the system, and you know just what you are taking, as everything it contains is printed on the back label of every bottle.

Third: Because Vinol acts first upon the stomach, creates a healthy appetite, tones up the digestive organs, purifies and enriches the blood, and in a natural manner health is restored and strength is created.

Fourth: Since we first put Vinol on the market our admiration for it has steadily increased, because it rarely disappoints a customer, in fact we can truthfully say we never sold a medicine more satisfactory to create strength for old people, sickly children, nursing mothers and to build up strength after a severe sickness.

Again Vinol is endorsed by eminent physicians and guaranteed by over 2,000 of the leading druggists of this country. These are some of the reasons why we believe in Vinol. Penny's Drug Store.

Quite a number of boys, some of whom are well grown and all well-known, on Hall-o'-e'en night committed acts of vandalism in the willful and deliberate destruction of personal property.

As some of the grand jury at the next term of court are from this locality the probability is that the matter will be investigated by that body.

James Frye and his excellent family leave about the 15th to make their home in Lexington, where Mr. Frye's greatly increased business demands all his time. With much regret we give them up and hope Dame Fortune's smile may meet their every want and in the near future, having acquired a sufficiency of the ever needful, gladly will we welcome them home again mid the scenes of their childhood in the "West End."

The spirit of vandalism seems to have reached the limit in the vicinity of Kidds Store as well as here and the indignation of the good people there is intense. Some weeks since a Magdalene of Long Branch was brutally assaulted and the matter of wide publicity has never proved the drastic legal measures so eminently demanded. Rather has there been virtual condonation by measures of arresting justice which certainly encouraged the late invasion of John Pemberton's home with tragic results—Elvin Mayes and Claud Grubbs were reasonably drunk and forced John at the muzzle of a pistol handled by Mayes to feign drinking from their bottle of whisky, to lie down on bed and perform some capricious evolutions. Then Mayes grasps a girl of 12 or 13 years, dragging her out the door in the dark, while Grubbs with a razor held near the baby's throat making an indecent proposal to the young, frightened mother. Then Grubbs followed Mayes and his proposed victim out of the house. Pemberton fished an ax from under the bed, dealt Grubbs a cut in the back, which he hoped had killed him, then attacked Mayes, dealing him a blow on the head which failed of its design because of a bullet from Mayes' faithful gun disabled an arm and lodged near the heart and he lay now in a very precarious condition. Grubbs and Mayes have sufficiently recovered to flee the country. The outrageous brutality of this affair is unfit for publication. From reports the officials of Casey county were derelict in their duty or the vandals would have been captured.

"I Thank The Lord!"

cried Hannah Plant, of Little Rock, Ark., "for the relief I got from Bucklen's Arnica Salve. It cured my fearful running sores, which nothing else would heal, and from which I had suffered for 5 years." It is a marvelous healer for cuts, burns and wounds. Guaranteed at G. L. Penny's, Stan-owd, Lyne Bros., Crab Orchard; 25c.

All argument in favor of the secret ballot is overwhelmed by the indisputable fact that there have been more frauds, more contests, more heated, partisan fights and more buying and selling of votes under the 12 years of secret voting than in the preceding generation of open balloting. Every good citizen, whatever his politics, should turn this fact over in his mind and vote as his conscience appeals to him.—Glasgow Times.

I have a handsome tailoring shop. Winter goods can make from a tailoress overcoat, trousers and fancy vests. The company I represent is one of the best.

The writer spent Wednesday at the Houses of Reform in company with Mrs. R. L. Stout, another commissioner, and made a thorough inspection of the institution, which is doing so great a work in the reformation of young criminals. We found everything in good condition, with but little sickness among the children. In the girls' department, in which there are 43, there has not been a case of sickness in 12 months. Quite a remarkable incident occurred while we were at the institution. A young man, who had served a term there, has since been made a deputy sheriff, and came in with three little fellows, who, we trust, will be as fully reformed as he. His is not an isolated case. Others sent out from the Houses of Reform have done well and most of them have turned out to be good citizens and doing well at the trades taught them.—W. P. Walton in Frankfort Journal.

No Poison in Chamberlain's Cough Remedy.

From Napier New Zealand, Herald:

Two years ago the Pharmacy Board of New South Wales, Australia, had an analysis made of all the cough medicines that were sold in that market. Out of the entire list they found only one that they declared was entirely free from all poisons. This exception was Chamberlain's Cough Remedy, made by the Chamberlain Medicine Company, Des Moines, Iowa, U. S. A. The absence of all narcotics makes this remedy the safest and best that can be had; and it is with a feeling of security that any mother can give it to her little ones. Chamberlain's Cough Remedy is especially recommended by its makers for coughs, colds, croup and whooping cough. When taken in time it prevents pneumonia. This remedy is for sale by all druggists.

A schoolmaster, after having punished one of his scholars for speaking ungrammatical, sent him to the other end of the room to inform another boy that he wished to speak to him. The younger, determined to be exact, thus addressed his fellow-pupil:

"A common substantive, of the masculine gender, singular number, nominative case, and in an angry mood, that sits perched upon the eminence at the other side of the room, wishes to articulate a few sentences to you in the present tense."

The Exact Thing Required for Constipation.

"As a certain purgative and stomach purifier Chamberlain's Stomach and Liver Tablets seem to be the exact thing required, strong enough for the most robust, yet mild enough and safe for children and without that terrible griping so common to most purgatives," say R. S. Webster & Co., Udoa, Ontario, Canada. For sale by all druggists.

Son Lost Mother.

"Consumption runs in our family, and through it I lost my mother," writes E. B. Reid, of Harmony, Me.

"For the past five years, however, on the slightest sign of a Cough or Cold, I have taken Dr. King's New Discovery for Consumption, which has saved me from serious lung trouble."

His mother's death was a sad loss for Mr. Reid, but he learned that lung trouble must not be neglected, and how to cure it. Quickest relief and cure for coughs and colds.
